

LARGE COMPONENT MACHINING SPECIALISTS

Maximum Capacities

Vertical Milling

X = 2500.0mm

Y = 1000.0mm

Z = 0850.0mm

Horizontal Milling

X = 1250.0mm

Y = 1000.0mm

Z = 1250.0mm

Vertical Boring

Diameter = 1830mm

CNC Turning

Diameter = 1030mm

Between Centres = 3200mm

Hydraulic steady units,
programmable

Powered / Driven Tooling

Latest Additions

- Mynx 9500/50 Vertical Machining Centre
- Puma HM8000 Machining Centre
- Puma 700LM Lathe
- OKK-800 Twin Pallet Horizontal Mill

Machining from

- Castings
- Forgings
- Plate
- Bar
- Full tooling and fixture facilities

Fabrication

- Coded Welders
- Lifting capacity of 4000kg

We have extensive experience machining all types of materials, from cast iron to super duplex, titanium and aluminium.

We would welcome the opportunity to meet with you. Should you wish to discuss a current project, or obtain a quotation, please contact **Ross Thomas** on **+44 (0) 1761 435210**.

ISO 9001 : 2008 Certification
